

Our 2025 Grant Recipients

Congratulations to the following chapters who were awarded grants for their incredible Ticktocker projects! Their creativity, dedication, and commitment to service continue to inspire us all. We can't wait to see the amazing impact you'll make in your communities.

	<p>Sports for All - South Bay Chapter, CA This project shines a light on limited access to sports opportunities in underserved communities, focusing on K-5 students in the Greater LA area. To support this effort, the chapter will host a tournament to raise funds to purchase sports equipment for 48 underserved schools.</p>
	<p>Deaf Awareness Day - Riverside Chapter, CA They seek to create engagement with the deaf community by promoting deaf awareness culture using games, art workshops, and facilitation of ASL opportunities. Inspired by the fact that Riverside is one of only three cities in CA with a hearing-impaired/deaf specialty school, this project was entirely envisioned by the Ticktockers and brought to life with strong support from their chapter.</p>
	<p>The NCL Tiny Home Project - Lake Washington Chapter, WA The chapter will partner with Sound Foundations Northwest to help provide safe, long-term housing for unhoused residents in Seattle. Together, members will construct and paint a durable tiny home using a jig system, designed to last a minimum of 20 years. This project addresses the urgent homelessness crisis in the Seattle area, while also fostering empathy and building valuable life skills.</p>
	<p>Teaching STEM with Sparkles - Cherry Blossom Chapter, VA This outreach initiative, created by the entire Ticktocker Council, aims to inspire and educate women and girls through partnerships with She Believes in Me, Hope Center, and Women Giving Back. Ticktockers will lead DIY soap workshops for over 200 participants, promoting creativity and the importance of handwashing.</p>
